

Onboarding Expert Review

Your fresh pair of eyes on your first-time user experience.

Here's what you receive:

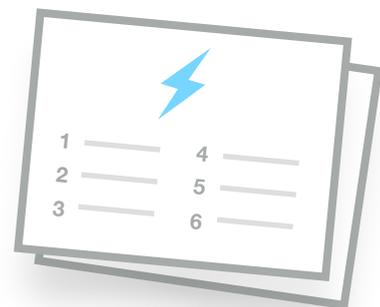

First-Time UX Review

We kick things off with a video review of your current onboarding flow. In-depth recommendations are provided via audio commentary. Usually runs ~1hr in length.

Quick-Fix List

After taking a detailed look at your onboarding, I outline the top no-brainer changes that you should strongly consider.

Quick Start Guide

a.k.a. “What needs to happen to make the **Expert Review** project official”

Step 1: Select your preferred delivery date

The turnaround time for this service is 2 weeks. All I need to get started are the materials from Step 2 (below) and an official thumbs up on the project overall, so pick whichever date works best for you!

Step 2: Sign off on your contributions

There's only one deliverable that requires input from you before we can start:

First-Time UX Review

All I need to know is which device to use and where to start the review.

It's easy-peasy, and you can see the exact form here: uo.fyi/ftux

Step 3: I send over an invoice

The service costs \$5,000. I ask for it to be paid in full before your delivery date. Checks and bank wires are both accepted, and details for each will be included with your invoice.

I don't require any formal agreements. If you require a contract on your end, though, I'm very open to them. Ditto for NDAs. I'm also happy to provide a formal SOW whenever needed.

Step 4: You send back a thumbs up

That's it! Just tell me that we have the green light and I will dive right in.
